Terminology

¹Polystyrene insulation: Refers to lightweight insulation for improved energy efficiency and sound reduction

²R-value: The higher the R-value, the greater the insulating properties

³Heavy-duty steel: A thicker, more durable and dent-resistant option, designed to withstand additional knocks and bumps from outdoor activity

⁴Backing:

Vinyl – For a clean, more finished look and added sound absorption

Steel – Interior-side steel backing for strength and finished appearance

Wind load-rated door

Our WindStorm™ wind load-rated system is available on selected products to meet regulations for a variety of wind speeds, ensuring your door is built to withstand varying wind conditions, including hurricane-force winds, and meet the most stringent local building codes.

The Genuine. The Original.

Since 1921, Overhead Door Corporation has not only raised the standards of excellence — we've created them. Overhead Door created the first upward-acting door in 1921 and the first electric garage door opener in 1926.

Today, our over 400 Overhead Door Red Ribbon Distributors are still leading the way with innovative solutions and unmatched installation, service and support. So look for the Red Ribbon. It's your guarantee that you're getting the genuine, the original Overhead Door.

Up to a limited lifetime warranty*

Some Overhead Door garage door models are backed by a warranty that protects against section rust-through for as long as you own your home. Also included is a one-year non-transferable, limited warranty ensuring high standards for materials and workmanship.*

* Warranties vary by model series. See warranty for full details.
